

Decontamination

DECONTAMAN PRE CAP

Antimicrobial wash cap

- Practical and quick use by demand based cap application, no rinsing necessary, microwaveable
- Antimicrobial hair washing without water
- Broad efficacy against bacteria including multi-resistant pathogens

Product description

DECONTAMAN PRE CAP is a ready to use washing cap for the antimicrobial cleaning of hair and scalp. DECONTAMAN PRE CAP allows a time-saving and thorough cleaning, especially for immobile patients, without additional rinsing with water. The antimicrobial efficacy also allows the use within the whole body washing in case of colonisation with multidrug-resistant bacteria. The cap is made of a very durable, latex-free material and can be heated if necessary.

Range of application

Acc. to Biocidal Products Regulation (BPR): Professional, antimicrobial cleansing of hairs and scalp in cases of colonization with multi-drug-resistant bacteria.

Application

Carefully take the cap from the package, unfold it and place the cap on the head so that all hair is covered. Massage the solution thoroughly into the hair and leave to act for at least 5 minutes.

Spectrum of efficacy and contact times			1 min	3 min	5 min
Application recommendation for disinfecting hair wash*	EN 1499 (modified)	dirty conditions			●
bactericidal	EN 13727	clean conditions	●		
		dirty conditions			●
yeastocidal (C. albicans)	EN 13624	clean conditions		●	
		dirty conditions		●	

Application notes

Do not use in case of known intolerance to chlorhexidine and on injured skin. Prevent penetration of the soaking solution into the inner ear and the eyes.

Heat in the microwave (750 W - 15 s). Heating times may vary depending on the microwave. Before using the cap ensure that it is not too hot. Do not reheat already opened packages. The cap is disposable, for one time use only.

Composition

100 g solution contains:
2 g chlorhexidine digluconate.
Contains perfumes.
